Audio Series Guide

Intro to HoloKompass Astrology™

- What's a Soul Contract?
- What's HoloKompass Astrology?

The Synchronicity of HoloKompass Astrology

Essentially HoloKompass Astrology is the art and science of intuiting and interpreting the energetic archetypal cycles of life and your soul's schedule of unfolding into the world via those cycles.

All those planets out there in the heavens are mirrors for what's happening in us and act as forces of synchronicity....as above, so below. Thus, any planetary cycle that we observe in the sky/Zodiac is also occurring within, because (as all mystics have said for ages) the ultimate reality is that there is no separation from what's out there and what's within.

The gift of HoloKompass Astrology is born out of learning to work with the cosmic/archetypal cycles of life consciously, as a co-creative act if you will. Thus, if you can learn to understand the inherent function of a planetary astrological cycle, you can use that energy in a more consciously empowered manner, and bring your timing/efforts more in line with Universal Will and processes; which means more in line with your Soul. Said another way, you find your Destiny's Kompass!

That said, HoloKompass Astrology isn't based on the idea that the Planets out there cause anything to happen via electromagnetic force fields or gravitational influences – all which science has proven isn't possible. Nor is it based in any New Age superstition. HoloKompass Astrology is centered in the truth that you have a Soul Agreement that connects you to the energetic creative evolutionary cycles of Planet Earth.

And these cycles are archetypally woven into the fabric of time and space as experienced in our human lives. Furthermore, these cycles are trackable via the synchronicity of the planetary movements that the ancients identified by projecting their intuitive and psychic understanding of them onto the night sky.

Thus, what makes HoloKompass Astrology work is the psycho-spiritual law Carl Jung discovered: SYNCHRONICITY! Enough said!

Future Scan – Massive ‘Cycle Change’ Year for 2018

2018 is a ‘Pulling back the Bow’ on change year – we have to assess what we really value and believe as we prepare to ‘Fight the Good Fight’. This will be clarified by ‘bottom-lining’ ourselves and others to discern where we are out of alignment with the Karmic Truths of our times...

-Pluto in Capricorn

(January 25th, 2008 – March 22nd, 2023)

-Shadow side of Capitalism, Economy, Patriarchy, American Mentality + Environmental Crisis Point via toxic air, water/oceans, soil + Issues with Nuclear Power and threat of Nuclear Holocaust...(for more check out my audio series)

-Neptune in Pisces

(Midway through its overall transit April 2011 – April 2025)

-All is One Truth, Deeper Understanding of Mystical Consciousness, Mystic/Addict Archetypal Axis, Mystical Healing, the continued undoing of a world/cultures out of alignment with Mystical Truths, tearing down of the World via the Oceans and Oceanic Death, Power & Powerlessness of the Mind...(for more check out my audio series)

-Uranus in Aries to Taurus

(March 2011 – May 2018 when it enters Taurus for 1st time)

-Beginning of major cycle change – from redefining ‘Individualism to redefining Resources, revolution of isolationism and values, climate change as activator of innovation per survival threats, transhumanism (mixing technology with biology), innovation in food production, Food/Resource revolution begins, 3D Printing, rebellions/revolutions over resources, moving out of fossil fuels, Global initiatives/laws passed on the regulation of resources as per world-wide effects...breakthroughs in bio-tech

-Chiron in Pisces to Aries

(We start and end 2018 with Chiron in Pisces / Chiron has been in Pisces since February 2011 and moves into Aries in April 2018 – with a retrograde back to Pisces in September)

-Chiron in Pisces brought a unique activation for many years with Neptune, and now will explore where Uranus just was the past 7 years – we’ve been looking at how we manage wounds with Addict, but never really heal them without the Mystic. Has activated the need to understand why we need the Mystic to manage being ‘multi-sensory’ as in psychic/intuitive, Victim Archetype activated as part of empathy overload – need to enter the both/and nature of boundaries and compassion. Deep merging of heaven and earth as one summoned in our understanding of God, both/and of Pisces. Wounding of the Oceans that poisons us, yet offers the potential to heal us. All is One, and One is All. Redefining Shamanic Consciousness...

Chiron in Aries – both/and of anger, The Warrior, the Sacredness of Rebellion as medicine that heals, both/and of Identity, Identity that can wound and heal, polarity as medicine is actually poison, Shamanic Intentionality

-Saturn in Capricorn (recently from Sagittarius)

(After 2.5 years in Sagittarius, Saturn transitioned into Capricorn on December 19th, 2017 – where it will be until December 2020)

-Saturn begins to evolve with Capricorn focus all that it activated while it was in Sagittarius – bringing to the fore lingering social, cultural, financial/economic, and ecological issues during much of 2018. Saturn will also begin resurrecting themes that Pluto activated from 2008 until NOW.

-Jupiter in Scorpio (recently from Libra)

(Jupiter was in Libra September 9th, 2016 – October 9th, 2017 when it entered into Scorpio. It will be in Scorpio until November 7th, 2018 with a powerful retrograde cycle in 2018)

-For us to move into the next expansion of our optimal holistic potential, we must enter the darker emotional/Thanatos side of our psyche as nations, cultures, societies, and individuals...from the Scorpion to the Phoenix, we must engage an alchemical shadow

journey of what is Truth and Meaning of our Soul Contracts...and ask ourselves if we'd rather die than change.

-Mars Retrograde in Aquarius/Capricorn

(Mars will be retrograding for two months June 26th, 2018 – August 27, 2018)

-This will expose what the real rebellion needs to be against the 'establishment/status quo'...an audio series on this will be forthcoming.

-Venus Retrograde in Libra/Scorpio

(Venus will close down 2018 with a retrograde in Libra from October 5th, 2018 – November 16th, 2018)

-This will summon unfinished themes of Jupiter in Libra and merge those with the Jupiter in Scorpio lessons – most specifically when it comes to how our values translate into choices and votes...an audio series on this will be forthcoming.

-Mercury Retrograde in the Fires Signs

(Mercury will retrograde in Aries March 22nd – April 15th, Leo July 25th – August 18th, & Scorpio/Sagittarius November 16th – December 6th)

-For the most part, Mercury will retrograde in all Fire Signs until it's last Retrograde at the end of the year when it starts to go back just two degrees into Scorpio...an audio series on this will be forthcoming.

-Major Lunations/Eclipses

There will be various lunations of importance that I will cover either in VLOGS or other Audio Series to come...

Summary: We are the World, I am a WE, 'There are no observers – only Participants'. This year is a year of major shift and tipping points. We will experience manifested consequences of karma that has been building for generations in the collective psychic field which will show us without question just the precarious balance that we now live in. The scales of Fate could tip in ways that generations could suffer from. The Archetype that is most essential in tipping the scales away from Fate into Destiny within this cycle is 'The Alchemist'.

Jupiter Retrograde in Scorpio

Part II

The Archetypal-Astrological Jupiter

Jupiter spends about one year in each zodiacal sign as it makes its sojourn through the heavens. During that time, Jupiter goes Retrograde once and spends about four months in Retrogression.

Jupiter truly is the planet that represents the function of intuitive perception in our consciousness. Whereas Mercury likes to process and gather data via the mind, Jupiter isn't concerned about data per se, but with what it means. Jupiter symbolizes the capacity to perceive life as being symbolically imbued with meaning and purpose. Jupiter is also concerned with the expansion of our lives and of what we could ideally be. In our solar system, Jupiter is the largest planet, the bigger the better is Jupiter's motto! To delve deeper into this, let's look at the mythologies connected to the planet Jupiter.

Trough out mythological history Jupiter has been associated with the king, patriarch, and the chief god in various pantheons. The gods associated with the astrological planet Jupiter, such as Zeus, were known as gods of thunder, learning, wisdom, justice, and prophetic vision.

As I just mentioned, Jupiter was the Roman god the Greeks knew as Zeus. Zeus was a benefic god of the heavens, ruling the expansive and limitless space above the earth. From his view on high, Zeus could see all, which illustrates the capacity of the astrological Jupiter to give us holographic intuitive glimpses at the bigger picture from a higher altitude. Zeus didn't like limits, nor does our astrological Jupiter like limits and encourages us to explore everything 'we could be'.

Jupiter wants to show us what is possible through a very optimistic perception of life. When Jupiter is going direct in the heavens and through our charts it brings expansion, holographic bigger picture insight, and optimism to the planets and houses it transits with an intuitive trust in future outcome.

Jupiter Themes

- Confidence**
- Esteem**
- Faith**
- Belief**
- Risk**
- Expansion**
- Integrity**
- Holographic Nature of Potential**

The Archetype of Jupiter brings light, faith, and confidence, with a vision that is holographic in nature, meaning it perceives the interconnectedness of the Divine Plan and Bigger Picture. “This is what you could be if you only take a risk and have a little faith...” Jupiter whispers in our ear when it’s going forward in direct motion. In fact, for Jupiter, faith is a mode of learning – a way of exploring our lives energetically via the vehicle of intuition, which again differentiates Jupiter from Mercury.

Learning for Jupiter involves participation with life in which wisdom is gained via the meaning of the experiences here in earth school. You will find Mercury reading a book in the corner learning lots of facts and figures, while Jupiter is in the other corner cracking his book open on *HoloKompass Astrology & Soul Contracts!*

The philosopher Pascal summed this up succinctly when he said, “Earthly things must be known to be loved; Divine things must be loved to be known.” Jupiter simply intuits what is True. Not Right/Wrong, but True per your Authenticity, Potential and Soul Contract.

What happens when Jupiter goes Retrograde?

First, as Jupiter is concerned with meaning, when Jupiter goes retrograde inner gravity pulls you inside yourself to investigate deeply the current philosophies or paradigms that you use to perceive life symbolically. Of course, the outer world will help you out on your journey within by causing the growth and expansion that you had hoped for to withdraw in the area of your natal chart/life in which Jupiter is going Retrograde in **Scorpio**, which will leave you with the question, “Why?”

This question ignites the impetus to take steps up into higher altitudes to see things more symbolically because the ‘Bigger Picture’ is activated and a holographic perspective is needed before you make one more decision!

Here’s how this can often breakdown: During Jupiter Retrograde, something that seemed like it was growing or moving forward stops as external circumstances thwart or block the desired results of expansion and growth. As this happens the only place to go is inside for a consultation with your intuition, Guidance Team, Angels, and Higher Power – and the energy that motivates your desires and achieving goals goes into neutral, allowing your inner intuition and wisdom to deepen.

You get called home to your Soul per this Jupiter Retrograde activation around the themes it’s animating (**all Scorpio this time!**) This allows you to see that what you thought was so meaningful before the retrograde – whether it was a cherished goal, ideal, career prospect, business venture, relationship, or future vision - perhaps wasn’t in alignment with your Soul Contract, needs further soulful development, and perhaps restrictive to the full expression of your potential here on earth.

Remember Jupiter loves freedom and expansion to be sure, but Jupiter’s Retrograde is the annual opportunity we are all given to re-evaluate what has meaning in our life and how we build our morality, sense of purpose, guiding life philosophy, goals, and ethics around that.

Said another way, something promising ‘appears’ to not live up to its promise – but what’s really going on is that it has gone ‘underground’ for soulful maturation. Things pull back into the unconscious for more growth in the **Scorpio** part of your life, Potential, and Soul Contract. Then when Jupiter Stations Direct **July 11th, 2018** and begins its forward movement and archetypal

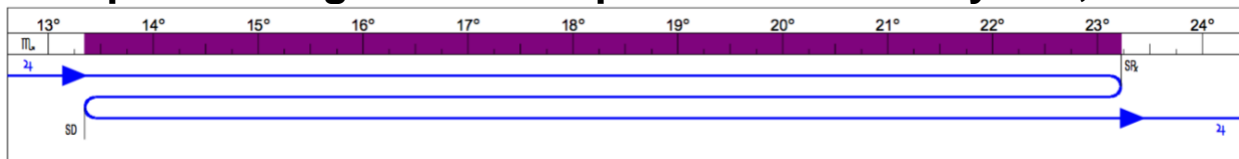

activation, what's in proper holographic alignment with your Potential and Destiny begins to unfold.

Thus, everything that you thought mattered, that you wanted/needed/valued may no longer apply as new bigger picture intuitive downloads arrive bit by bit during the Retrograde. *There's a change in the wind setting your course for a new expansive way to engage the energy, emotions, and psychic fields of others from the empowerment of The Alchemist – so that you can get on with a new level of your potential! This is Jupiter Scorpio baby!*

Understanding Your Rhythm of Opportunity and Self Expansion

Indeed, whether you know it or not, you always are moving into a new field of potential! *Jupiter Retrograde in Scorpio* is the activation of a clause in your Soul Contract that says: 'Hang out in the retrograde energy field for 4 months making no major conclusions about the 'bigger **Scorpio** picture of your life!' Action is taken as is felt necessary in the moment! I like to call this the 'Ikea' building of your life!

Specific Jupiter Retrograde in Scorpio Dynamics of Great Importance

Before we begin to look at Jupiter Retrograde in Scorpio, we must look at the bigger continuum of cycles, most notably the past Jupiter Cycle years and Jupiter's activation of Libra.

What did the Jupiter in Libra Cycle Bring Up Last Year?

-Jupiter in Libra

-Review content from this Audio Series from 2017 if you have it

-Expansion via The Mystical Lover/Companion Archetypes: Defines a certain pattern of relationship we can have with ourselves and others that is both personal & impersonal. It is activated and developed when we have to learn how to love what previously we found unlovable both in ourselves and the World. Seeks to bring the most love possible to the moment.

-Connect this to themes regarding a new cycle of relationship potential, equality, esteem, loving, connecting, your relationship with 'God', what your past and current relationships mean to you now, etc.

Jupiter Cycles/Retrograde and Potential

Potential = something that has the inherent capacity for coming into being

-NOT about 'ok-ness'

-“People aren't f**ked up, they're just responding to their past again and again in their present via traumatic triggers” (Traumatic Response)

-THIS shuts down potential – technical phenomenon!

-We'll explore much around emotions as identity, emotional sensitivity, esteem, the power of focus, psychic hygiene, psychological triggering, shadow work, and alchemy this time around!

Potential: Activation vs. Development

-Something in you already

-Something in a process of growth and evolution

-When both are True!

Jupiter Retrograde in Scorpio: **Call to Expansion Through the Four Alchemical Stages of Scorpio**

The Power of Alchemy:

1. A form of chemistry and speculative philosophy practiced in the Middle Ages and the Renaissance and concerned principally with discovering methods for transmuting baser metals into gold and with finding a universal solvent and an elixir of life.
2. Any magical power or process of transmuting a common substance, usually of little value, into a substance of great value.
3. Any seemingly magical process of transforming or combining elements into something new...

From Jupiter in Libra - Relationships can activate our psyche to new integration, healing, and awareness. They wound us, heal us, and open new dimensions of potential. They also show us our Shadow, our Power, and our Powerlessness. We need them to see our blind sides, our talents, our gifts, and to get our various needs met.

The Alchemy of Scorpion to Phoenix: Bringing an alchemical transformation to shared emotional content that is hidden in the Shadow in ways that allow an ascension to new power.

-Scorpion: New Potential is gained by evaluating your Scorpio dynamics of Self-Sabotage (Scorpion)

-Bringing solace/soul-utions to pain, this first requires being with your feelings and embracing your emotional nature

-dwelling vs. process

-what keeps you stuck in dwelling (shame!)

-Snake: New Potential is engaging in deep psychological investigation, analysis, and containment of emotional reactions (Snake)...leads to transmutation of emotional complexes

-Eagle: New Potential is gained via emotional containment and detachment with an abiding presence with Self.

-Victim Consciousness becomes neutralized in perceptual process, new Spiritual/Holographic/Soul Contract perspective is gained. Your new power is CONSCIOUS CHOICE vs. reactions that self-sabotage you.

Survival is strategic, not reactive...(Eagle)

-Phoenix: New Potential is created from engaging Life with Mystical Consciousness

-Soul-Esteem, Mystical Understanding of Soul Contracts, Soul-Evolution most important, Personal & Impersonal balanced for Soul-Service, Directed Metaphysically, Life Strategies are not bound to survival fear

-What usually causes us to move out of this level of Scorpio's pattern is an overwhelm of self-sabotage and its karmic effects...but some would rather destroy and die before changing.

-When willing to transform into the Snake level of Scorpio, it's usually led by an intervention of karma and love that forces self-evaluation and self-reflection...this is an invitation into Hades led by the Guide Archetype...

-Snake: New Potential is engaging in deep psychological investigation, analysis, and containment of emotional reactions...leads to transmutation of emotional complexes

-The Karmic Effects of Self-Sabotage often force us to go within and explore our triggers and reactions

Important insights for this phase:

-This phase of Scorpio Alchemy is perhaps the most intense and most important. It's where we begin Shadow Work within the emotional and psychological facets of our nature. It's also when Emotional Intelligence becomes a central guide to the labyrinthine territory of our Shadow.

-Most of our adult trauma was forged into our psyches when we were children – this is when we first experienced the powerlessness that comes with being in a merged psyche with others, most notably at this stage our parents and family karma.

-To heal we must open to the emotional vulnerability of once again sharing our psychic content with others – whether a Therapist, Healer, Counselor, or Priest – we learn a psychic truth that we can be both wounded and healed by the psycho-emotional resources of others.

-Emotional Loops & Their Karma: As we begin to witness our Emotional Loops, it becomes crucial to become curious about them and not judge them.

The major realizations that helps kick some alchemical ass here are:

-Emotions are not Identity!

-Emotional discomfort can produce growth and isn't to always be avoided

-We can become 'comfortable' in our dark emotions

-what dark emotions are you comfortably stuck in – why?

-Lighter emotions can be just as uncomfortable as darker one

- what positive emotions are you uncomfortable with – why?
- What Emotional Safety do you need for each stage of Scorpio?
(The Emotional Safety of Self-Compassion is more established in Eagle Phase)
- There is an alchemical and emotional powerlessness to merging with others...The French call sex 'la petite mort'
- You can control the combustion of that two psychic fields create
- You must be required in your desires
 - How you handle merging your energy field with others is just as important as how you handle the powerlessness of rejection!
 - both can lead to growth and expansive emotional empowerment
 - the set-up for sexual harassment
 - emotional disempowerment

Emotional Disempowerment = Being psycho-emotionally fractured in such a way that you lose a connection to your emotional center and your feelings. Thus, you can't engage in empathy, compassion, and clear emotional guidance. Strategies to control come online and create self-sabotage, whilst sabotaging others. Tactics of scapegoating, blame, manipulation, and bullying others become a central focus of actions and choices.

Emotional Empowerment = Your capacity to stay connected to yourself in a holistic rapport with ALL your feelings. Being connected to your Emotional Intuitive System via Emotional Presence.

Emotional Presence: Compromised Dimensional Presence vs.

Full Dimensional Presence

(Often emotions are the arbiter of your quality of presence – my story)

Sexual Harassment:

- Harassment as kids – who did you harass and why?
 - liked them, envious of them, felt disempowered, etc
- Harassment as adults – compensation for feeling inadequate, fears of rejection, feeling intimidated
- Form of the Vampire Archetype
 - violating someone is an attempt to take power away from them
 - consider violating expressions of sexuality (rape, incest, promiscuity as violation of self, sex addiction)

An empowered person has a stronger (psychic) immune system, better coping strategies, resiliency, self-connection, more internal psycho-emotional resources, more meaningful and bonded relationships, clearer intuition, thinks/feels for themselves, more patience, risks rejection, and empowers others!

-After spending a significant amount of time in this stage – which requires enormous feats of forgiveness and compassion, shedding skin after skin, a new transformation

takes hold as more and more conscious choice frees up...and you graduate to the Eagle level of Scorpio's pattern...this too is led by the Guide...

-Eagle: New Potential is gained via emotional containment and detachment with an abiding presence with Self. This is a powerful and often achievable level of Scorpio power and consciousness.

-Victim Consciousness becomes neutralized in your perceptual process, and new Spiritual/Holographic/Soul Contract perspective is gained. Your new power is CONSCIOUS CHOICE vs. reactions that self-sabotage you. Survival is strategic, not reactive... 'Witness Consciousness' is now available.
