## **Welcome to this Myss.com Reflections Parallel Series!**

Within our Soul Contract with Destiny, we are scheduled to encounter 4 essential stages of Mystical Empowerment. And each of these stages occurs in a holographic relationship with the others.

Furthermore, each stage contains its own Dark Night crisis, during which we are asked to come to terms with the Wounded Patterns that no longer serve us – especially the patterns we have made our identity.

Through this Dark Night, we are directed to release and replace these Wounded Patterns with 'Soul Patterns'. And it's these Archetypal Allies that have the power to reshape our Destiny.

The Four Stages of Mystical Empowerment are:

1. Birth
2. Healing
3. Spirituality
4. Relationship

In this session we begin with an introduction to the Holographic Nature of Your Soul Contract and Archetypes, and then we enter the First Stage of Mystical Empowerment: *Birth*
